# Shoulder Surgery 2025

Emerging Technologies in  
Arthroscopy, Fracture Care  
and Arthroplasty

**BERLIN**  
International Shoulder Course

**2025**

APRIL 24 – 26  
BERLIN, GERMANY

## INVITATION

### Shoulder Surgery 2025 – Emerging Technologies in Arthroscopy, Fracture Care and Arthroplasty

Dear Sponsors and Supporters,

Emerging technologies in the field of shoulder arthroscopy, arthroplasty and fracture care dominate our daily clinical practice. Thus, Berlin International Shoulder Course (BISC) 2025 will focus on new technologies, innovative implants and surgical procedures that aim to constantly improve the clinical results. It is a great pleasure to invite you to join us for this fascinating journey.

Leading experts from all over the globe will contribute with their expertise and will illustrate how to achieve the best possible treatment outcome for our patients. Video demonstrations, live surgeries,

mini-battles and debates will complement the scientific lectures. Practical skills can be improved and enhanced in ultrasound and cadaver workshops.

Our meeting will again take place in one of the most attractive locations in the heart of Berlin, between Kurfürstendamm and Potsdamer Platz. The InterContinental reflects the dynamics of the German capital and unites tradition and modernity. Its outstanding meeting facilities guarantee professionalism in a familiar atmosphere.

We are looking forward to welcome you to the Berlin International Shoulder Course from April 24th–26th 2025.

Prof. Markus Scheibel
