## International Training Course for Hip Arthroscopy

**Dear colleagues,**

The diagnosed diseases of the hip joint are ever increasing. This is not least due to the increasing knowledge about the origin of individual hip pathologies. In the past, hip arthroscopy was unimportant because only few diseases could be sufficiently treated.

Over the last few years the technology of hip arthroscopy has experienced a fast further development. The resulting therapeutic possibilities are becoming increasingly important in the treatment of diseases of the hip joint.

Due to the anatomy of the hip joint, hip arthroscopy is technically very complex and demanding. In this course we want to offer you the possibility of learning the basics of hip arthroscopy step by step. You will complete your skills in small groups working on human preparations and models under the instruction of renowned experts.

We wish you an interesting and successful course.

Kind regards,

A handwritten signature in blue ink, consisting of a large, stylized 'W' followed by a horizontal line and a small dot.

Wolfgang Miehke

# Programme

## International Training Course for Hip Arthroscopy

### ***Friday, 30<sup>th</sup> November, 2012***

- 04:00 p.m.    **Welcome**  
*W. Miehke*
- 04:15 p.m.    **Live surgery**  
*W. Miehke*  
*Moderation C. Eiermann*
- 07:30 p.m.    **Common dinner**

### ***Saturday, 1<sup>st</sup> December, 2012***

- 09:00 a.m.    **Anatomy of hip joint - central and peripheral compartment**  
*J. Metz*
- 09:30 a.m.    **Patient positioning**  
*C. Sobau*
- 09:45 a.m.    **Portal placement**  
*C. Eiermann*
- 10:00 a.m.    **Diagnostic overview**  
*W. Miehke*
- 10:15 a.m.    **Coffee break**
- 10:30 a.m.    **Hands on**  
*Rotation every 45 minutes*
- Station 1      **Patient positioning**
- Station 2      **Anatomic overview on cadaver**
- Station 3      **Hip arthroscopy on Sawbone models**
- Station 4      **Hip arthroscopy on cadaver**
- 12:00 p.m.    **Common lunch**
